PG60 BATTERY PROFILE GRINDER

The STANLEY® PG60 is a powerful cordless profile grinder built to run on the DEWALT® FLEXVOLT® 60V Battery System. This ultimate rail grinder offers an unparalleled user experience featuring ergonomic functionality, improved balance, and an integrated toolless shaft lock for quick grindstone replacement. The enhanced frame design eliminates interference with rail aligners and has removable stone guards for quick switching between 4" and 6" guards and grinding stones. With 40% improved visibility over the STANLEY® PG05, the PG60 ensures an optimal weld grinding experience.

PG60 BATTERY PROFILE GRINDER

FEATURES

- Designed with ergonomic functionality for an enhanced user experience. Featuring a one-handed clamp adjustment, better balance when carried, and a shaft lock for easy grinding stone replacement
- Enhanced frame design ensures that there is no interference with rail aligners. Moreover, the stone guards are removable, allowing for quick switching between 4" and 6" guards and grinding stones
- Battery-powered operation eliminates the hazard of tripping over hoses during use
- Optimal grinding experience with a continuous run time of 8 minutes
- 40% improved visibility of the grind area compared to the PG05, a higher base frame with added windows allows for clear visibility of the work area and maximizes work efficiency
- Mechanical lift points come as a standard feature, along with hand lift points that can be quickly attached
- Safety interlock trigger system prevents unintended start-up
