

STANLEY

PG10 PROFILE GRINDER

FEATURES:

- The Stanley PG10 Profile Grinder is designed to grind a wide range of rail from 90# to 140#. Adjustable flange wheels which cannot get out of adjustment ensure grinding accuracy.
- Contains a hydraulic motor specifically designed to match power and rpm for grinding applications. A built-in flow control is used to avoid excessive spindle speed.
- For added safety the PG10 features an interlocking trigger which prevents accidental engagement of the tool.
- The PG10 also features a removable wheel guard for easy access to the grinding wheel when installing and removing grinding wheels.
